

Off-network type data center cabinets for mining

Overview

These deployable, seismic and UL-rated cabinets are fully welded, pre-assembled, and come standard with features such as recessed PDU Cavities, and are configurable with or without doors, sides and tops to provide a truly modular scalable solution. Our UL Listed, patented mining infrastructure is customizable and modular-built just for you and ready for expansion whenever you need it. A future-proofed design: Not only can our products be scaled to adapt to your growing needs, they also come with the ability to adjust the height between. We provide the right cage, suite or server cabinet options to accommodate your equipment size, power and cooling requirements while providing layers of physical security to protect your deployment. Our colocation options are designed to be interconnection-ready, enabling private, local and virtual. The first place you'd want to start data center normalization is the racking systems and containment solutions. Ready to Innovate Your IT. Our DC Series is the Data Center Standard for high-capacity, high-weight load rated, feature rich cabinets. We offer the most flexible cabinet and rack solutions designed to meet the needs of the most demanding environments. With the most frame styles.
