

Phase change energy storage system production company

Overview

Phase Change Solutions is a global leader in temperature control and energy-efficient solutions, using phase change materials that stabilize temperatures across a wide range of applications. Customers across transportation of perishables and pharmaceuticals, buildings and structures, telecom and. Energy storage is the process of capturing and storing energy for future use. Devices that store energy are commonly referred to as batteries. We're proud to be one of the best-known names in the industry. Get in touch to. Phase Change Energy Solutions is a series C company based in Asheboro (United States), founded in 2011 by Byron Owens and Reyad Sawafta.
