

# Photovoltaic panel edge cutting blade

## Overview

---

Quick-change blade design enables fast model switching and efficient operation. Used for edge trimming of laminated PV modules to remove excess encapsulation film, glass burrs, or backsheet overflow, ensuring clean edges and precise dimensions. Features synchronized four-side cutting for smooth, damage-free edges. 4 unit drivers control 4 cutter heads, move in all directions with 8 cutter. Lifetime of knife 50000times 4. With protection cover and emergency function 5. Shorter knife installation and changing. An automatic trimming machine is used to automatically remove burrs and exceed materials from PV module edges after lamination. The trimming machine can adapt to different sizes and shapes of panels and has a series of merits like high trimming quality, precision and speed, low noise and easy. Shuofeng, is a professional solar panel production line, industrial laser processing system, eva backboard cutter, silicon wafer laser cutting and mobile display cutting machine provider. blade is constantly improved.

## Photovoltaic panel edge cutting blade

---

### [Photovoltaic Panel Trimming Blades](#)

We have nearly 10000 types of stock according to different specifications, and we can customize and process blades that are more suitable for customers based on their materials, cutting environment, ...

### [Automatic Trimming Machine , Solar Module Manufacturing ...](#)

An automatic trimming machine is used to automatically remove burrs and exceed materials from PV module edges after lamination. It can adapt to different sizes and shapes of panels and features high ...

### **Edge Trimming Machine**

Used for edge trimming of laminated PV modules to remove excess encapsulation film, glass burrs, or backsheet overflow, ensuring clean edges and precise dimensions.

### [Automatic Trimming Machine , Solar Module ...](#)

An automatic trimming machine is used to automatically remove burrs and ...

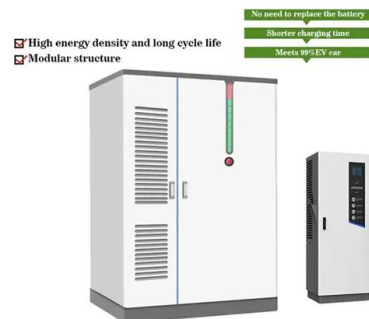

### Edge Trimming Machine

Used for edge trimming of laminated PV modules to remove ...

### [Intelligent Edge-Finding Eva/Poe Cutting & Layup](#)

One-click switching supports various module sizes, enhancing both efficiency and stability. Precisely cuts and lays encapsulation films and backsheets materials. Features intelligent deviation correction, ...

### [AUTOMATIC TRIMMING MACHINE \(4 heads, 8 knives\)...](#)

Following precise positioning, the equipment autonomously trims excess materials surrounding the laminated modules by rotating its servo cutter head.

### [Automatic Trimming Station for Solar Modules](#)

Discover how the ECOTRIM A can automatically trim excess material from the edges of solar panels post-lamination.

### [How to Use a Photovoltaic Panel Edge Cutting Knife: Precision](#)

Meta Description: Master photovoltaic panel edge cutting knife techniques with this guide. Learn step-by-step methods, avoid common errors, and boost solar panel efficiency--backed by industry data ...

### [Auto Solar Panel Edge Trimming Machine](#)

Our main eva backboard cutter, silicon wafer laser cutting and mobile display cutting machine products are solar panel making machines, and used solar panel marking machines.

### [Auto Trimming Machine, Radiant Pv Solar](#)

Auto Trimming Machine, Radiant Pv Solar. 1. The design of the arc knife edge improves the trimming effect, the cutting edge is smooth, no burr. 2. 4 unit drivers control 4 cutter heads, move in all directions ...

## Auto Trimming Machine

Description Is an automatic trimming solution for edge cutting of the PV module. The machine loads and centres the panel from the long edge and trims simultaneously the four edges of the panel with 4 ...
