

Photovoltaic panels installed in rental houses

Overview

Can I install solar panels on the roof of a rented home?

In theory, yes. But we wouldn't recommend this; it doesn't make sense to spend so much on a property. As energy costs rise and climate concerns grow, solar panels for rental properties are becoming an attractive solution for both landlords and tenants. The first thing you'll need to consider is whether your landlord will allow you to install solar panels. By incorporating innovative rental property construction products like high-quality solar panels, property owners can ensure long-term performance and. Can you go solar if you rent your home or live in an apartment?

The simple answer for renters who want solar panels for their apartment or house is that it's possible! While you may be able to pitch your landlord to install a rooftop solar panel system, community solar is more likely to be your.
