

# Photovoltaic support wood manufacturer

## Overview

---

US-based NextPower has secured the top position in Wood Mackenzie's global photovoltaic (PV) tracker manufacturer rankings based on data for the first half of 2025. Chinese manufacturer Trina Tracker ranked second, followed by another US-based firm, Array, in third place. Our manufacturing base covers 9,000 square meters in. As the world's leading one-stop supplier of PV materials, we possess an annual production capacity of 320 million square meters for backsheet and have shipped a cumulative volume exceeding 260 GW. As a global leader in n-type technology, Jolywood was among the first PV enterprises in China to. WholeTrees is working to propel this low-value waste stream into high-value structural markets to retain the awe and delight of our forests, limit forest fires, and deter redevelopment. Black locust is a highly invasive species that is abundant across the country. This tech spec was submitted by Joshua Pearce as part of the University Technology Exposure Program.
