

Recruiting workers for dismantling photovoltaic panels

Overview

Advastar specializes in solar recruiting and staffing, connecting renewable energy companies with qualified solar technicians, installers, and project professionals nationwide. Solar panel decommissioning involves removing PV panels and all associated components from a site and restoring the area to its original state. This comprehensive process includes dismantling equipment such as racking systems, wiring, inverters, transformers, and foundations. With over 60 years of combined industry experience, we've become the trusted solar staffing agency for EPC contractors. When you need screened, vetted solar workers you can count on, Spec On The Job is your trusted partner. Would you like to find out how Airswift can support your solar project?

CONTACT A WORKFORCE SPECIALIST The industry is changing fast. We are hiring an experienced Commercial Solar Crew Lead to manage a crew of 5-10.
