

# Replacement of generators at power stations

**Efficient  
Higher Revenue**

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPP Trackers, 150% DC Input Oversizing
- Max. PV Input Current 16A, Compatible with High Power Modules

**Intelligent  
Simple O&M**

- IP66 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

**Flexible  
Abundant Configuration**

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AFCI Function (Optional): when an arc-fault is detected the inverter immediately stops operation

## Overview

---

In summary, portable power stations can replace traditional generators in scenarios where power demand is low, environmental protection and noise are required, and portability is required. They come with multiple outlets and USB. A portable power station, also known as a portable solar generator or portable battery pack, is a device that stores electricity and can be used to power electronic devices and appliances when no other power source is available. So can they completely replace. Stay powered and connected wherever your adventures take you with a reliable portable power station from Lowe's. This is a great solution for renters and folks who want to use backup power.
