

Sliding photovoltaic panel costs

Overview

Based on our 2025 survey of 1,000 solar customers, the national average price for a single solar panel professionally installed is \$1,200. This means most full-size systems of between 20 and 30 panels cost between \$24,000 and \$36,000. Solar panels can lower your electricity bill by 75% or more, but the upfront investment is significant. Your actual cost depends on your. Note: Costs are expressed in constant 2024 US\$ per watt. Global estimates are used before 2010; European market benchmarks thereafter due to limited data availability. 50 per watt of installed capacity (more on price per watt below).
