ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

The image shows a white, rectangular Energy Storage System (ESS) unit. It has a vertical orientation with a door on the left side and a control panel on the right side. The control panel features several indicator lights and a small display. The unit is mounted on a black base with ventilation slots.

Overview

Estimate solar potential at your address. Use our calculator to discover savings, environmental impact, and customize your solar solution. We use Google Earth imagery to analyze your roof shape and local weather patterns to create a personalized solar plan. Compare loan, lease, and purchase options for your solar. Caution: Photovoltaic system performance predictions calculated by PVWatts ® include many inherent assumptions and uncertainties and do not reflect variations between PV technologies nor site-specific characteristics except as represented by PVWatts ® inputs. For example, PV modules with better. Investments from the U. You may be considering the option of adding a solar energy system to your home's roof or finding another way to harness the sun's energy. While there. Determine the solar potential of your house with this handy calculator, helping you assess if it's primed for sustainable energy solutions. is a renowned and highly respected manufacturer and agent of new energy equipment in China. We specialize in wind power generation systems, photovoltaic power generation systems, wind-solar hybrid power generation systems, battery energy storage. Where will the solar panels be installed?

Estimate solar potential at your address.
