

# Solar inverter labor cost price list

## Overview

---

For installation of the entire system, expect to spend around \$0.24 per watt on a solar inverter, not including labor costs. You may save \$1,000 to \$2,500 up-front by. Premium Technology Justifies Higher Costs: While SolarEdge systems cost 20-35% more than basic string inverters (\$5,500-\$9,000 vs \$3,000-\$5,000 for residential installations), the module-level optimization delivers 15-25% higher energy production, typically paying for the premium within 2-3 years. Typical cost range for a residential inverter system spans from about \$1,000 to \$4,000 before tax incentives, with a common mid-range around \$2,000-\$3,000 for mid-sized setups.
