

Solar off-grid energy storage power station in New York USA

Overview

CVE North America has taken a significant step towards promoting renewable energy by initiating construction on its first solar and battery energy storage system (BESS) in New York State. 9, 2025 /PRNewswire/ - PowerBank Corporation (NASDAQ: SUUN) (Cboe CA: SUNN) (FSE: 103) ("PowerBank" or the "Company"), a leader in North American energy infrastructure development and asset ownership, is pleased to announce that it has executed a lease agreement on a 5 MW AC. Energy storage is a smart and reliable technology that helps modernize New York's electric grid, helping to make the grid more flexible, efficient, and resilient. Located at the Riverhead Project site, this innovative facility is set to feature a 7 megawatt (MW) solar array. New York City's largest battery storage facility will replace a natural gas peaker plant unit retiring in 2025. Utility-scale battery energy storage developer Elevate Renewables and ArcLight Capital Partners will install a 15 MW/60 MWh distribution-level battery storage facility at the Arthur Kill. Overall, we're impressed with the performance, quality, and looks of the Renogy 100 watt foldable solar suitcase. We're confident it will power your systems for years to come and that you'll be glad you went with Renogy. From solar panels to solar charge controllers, inverters, batteries, and solar.
