

Solar power is cheap

Overview

In 2025, the average price of a solar installation is about \$21,816 before any incentives are applied. Anything you can do to lower the cost goes a long way to making it easier to take the leap and start paying your utility company less money each month. No company can pay to alter the reviews or review scores shown. Instead, finding the best deal on solar panels for your home means considering several factors, including solar panel pricing, energy output, efficiency, lifespan and installation costs. Most homeowners save around \$60,000 over 25 years. AXITEC, Jinko Solar, LONGi Solar, REC Group, and QCELLS are our top picks for the best cheap solar panels based on.
