

# South sudan solar industry

## Overview

---

The country offers various opportunities for solar investment, from utility-scale projects to distributed generation solutions. Sudd Green Energy is a pioneering renewable energy company committed to transforming South Sudan's energy landscape through sustainable and innovative solutions. Learn More Shaping the Future Powered by Nature. The Ezra Group, a prominent business conglomerate, has successfully developed and financed a 20-megawatt (MW) solar power plant, complemented by a 14-megawatt-hour (MWh). Discover comprehensive insights into the statistics, market trends, and growth potential surrounding the solar panel manufacturing industry in South Sudan South Sudan boasts an abundance of sunlight, receiving an average of 2,788 hours of sunshine per year, out of a possible 4,383 hours. This. Because South Sudan is still in the beginning stages of their infrastructural development, there is a rare opportunity to move forward and address the issue of energy poverty by building sustainable models of electrification, like solar power, without having to dismantle an already existing energy. According to 2025 statistics, South Sudan, which is 42nd in terms of the size of the territory, is home to around 12 million people, and according to the population density the country is 207th in the world from 242 countries considered [2].

## South sudan solar industry

---

### Juba Solar Power Station

There are plans to build new generation stations and to import electricity from neighboring Ethiopia, Sudan and Uganda, but the civil war has hindered progress in that direction.

### [Energy industry in South Sudan](#)

Sudan and South Sudan, situated in east Africa, became independent in July 2011 after a referendum in Southern Sudan. South Sudan is situated in equatorial Africa and has no access to the ...
