

Stainless steel grounding conductive sheet for photovoltaic panels

Overview

Safety Protection/Solar Grounding Sheet: Designed for reliable grounding in photovoltaic systems, this solar grounding sheet helps forestall electrical faults, adding an extra layer of protection for rooftop arrays, ground mounts, and greenhouse solar panels. **Robust Grounding Solution:** This module piercing sheet. Packaging should be the same as what is found in a retail store, unless the item is handmade or was packaged by the manufacturer in non-retail packaging, such as an unprinted box or plastic bag. See the seller's listing for full details. See all condition definitions [opens in a new window or tab](#). The special teeth on the grounding clips for solar panel can be embedded in anodized aluminum and establish a gas-tight electrical connection.
