

Stockholm Energy Storage Fire Fighting System Manufacturer

Overview

With CRRC (China Railway Rolling Stock Corporation) deploying their modular battery systems across Scandinavian wind farms, fire prevention isn't just about safety sheets anymore. It's about keeping the green energy revolution from literally burning out. Firefly is an international fire protection company that has been helping industrial operations protect their processes from costly damage and downtime due to fires and dust explosions since 1973. Firefly's systems react rapidly. Since 1973, Firefly has specialized in creating customized system solutions of the highest technical standards and. Our dedication to quality control is recognized through certifications from leading class societies, granting us the autonomy to self-classify our flagship products. With a dedicated team of fire engineers and project designers, they prioritize high-quality service and efficient solutions. The company focuses on the full-chain OEM of automotive, industrial control, and medical PCBA, and independently develops new energy products such as lithium battery protection boards, charging equipment, lithium battery PACK, mobile energy storage power supplies, as well as torque wrenches, torque. When a 20MW solar farm in Arizona experienced battery compartment overheating last summer, their modular suppression system contained the incident to a single storage unit, preventing \$2.

Stockholm Energy Storage Fire Fighting System Manufacturer

GRADE A BATTERY

LiFePO4 battery will not burn when overcharged over discharged, overcurrent or short circuit and can withstand high temperatures without decomposition.

[Top 43 Fire Protection Companies in Sweden \(2026\) . ensun](#)

The company specializes in fire protection during construction, offering services such as fire planning, risk management, sprinkler systems, and fire alarm systems.

[Global Fire Protection for Energy Storage Market 2025 by Company](#)

Key players in the global fire protection for energy storage market include fire protection system manufacturers, battery manufacturers, and solution providers.

[Swedish energy storage fire company](#)

A fire service report into a thermal runaway and explosion in a lithium-ion battery energy storage system (ESS) in Sweden has called for clearer national guidelines on preventing and fighting ESS fires.
