

Stockholm installs solar power generation system

Overview

In the spring and summer of 2024, Momentum completed its first solar plant in Sweden. The plant is located west of Stockholm between the E18 highway and the railroad connecting Västerås and Stockholm and covers an area of approximately 11 hectares. Sweden uses a lot of energy, yet emissions are low. Renewable energy could be power generated from water, wind or the sun, or any other. The Ports of Stockholm, the group owned by the city of Stockholm responsible for managing its ports, will build six new rooftop solar cells at its facilities in the city, adding 550MWh of power generation to the ports. Read more about Solar capacity ratings. According to the report, 41,395 new PV systems were connected to the Swedish electricity grid in 2024, adding a total installed capacity of 847. This represents a 47% decrease compared to the.
