

**The inverter is remotely  
controlled by the manufacturer**

## Overview

---

Inverter remote controllers are essential components in modern energy management systems. They enable users to operate and monitor inverters remotely, improving efficiency and convenience. - Works with REDARC RS Series Inverters - Can be flush mounted for professional installations - Inverter can be installed out-of-sight up to eight metres from remote The REMOTE-RS has been designed to work with REDARC's. Gives you complete control of your Tripp Lite PowerVerter inverter or inverter/charger from up to 50 ft. 12V DC, 36-Amp Replacement Battery for. If you need a switch for an inverter you already own that did not come with a switch and are unsure of which remote your inverter takes, please ask us as we should be able to cross-reference it for you. The CAB1000 is a versatile, high-density energy storage platform designed for quick and easy deployment.
