

# The largest user-side energy storage power station in North America

## Overview

---

Enel completes GulfStar, its largest U. power plant, a 556 MW solar and 355 MW battery storage project in Texas delivering clean energy and local impact., Novem- Enel North America completed its largest power plant in the United States with the start of operations of the. The Wilmot Energy Center is a 30-megawatt (MW) battery energy storage system located in southeast Tucson, Arizona. By 2023, the region had already installed a staggering 2,460 gigawatts of renewable energy capacity, surpassing conventional sources. Developed by IP Darden I, LLC, a subsidiary of Intersect Power, the project integrates a 1,150 MW solar photovoltaic facility with 1,150 MW / 4,600 MWh of storage capacity. Their total operating capacity is 40,671 MW. Click any of the links below to jump to a specific section:.

## The largest user-side energy storage power station in North America

---

### Applications

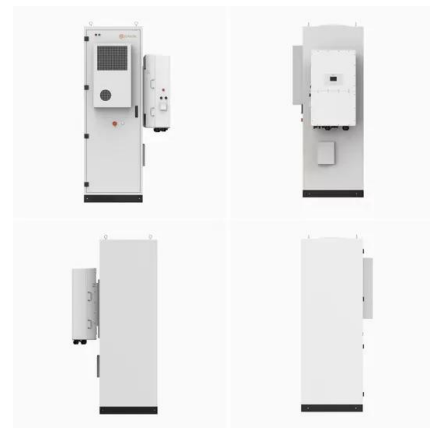

### PowerPoint Presentation

Fluence is the global leader in energy storage 30 MW of energy storage for San Diego Gas & Electric, California, United States

### [List of largest power stations in the United States](#)

The largest power generating facility under construction is the Chokecherry and Sierra Madre Wind Energy Project in Wyoming, which will generate 2,500-3,000 MW when completed in 2029.

### [Who are the top 5 US storage companies by operating capacity?](#)

Credentials: The largest US storage project expected to be completed in Q4 2024 is Primergy's \$1.2 billion Gemini solar & storage scheme in Nevada, which consists of 690MWac solar ...

### [Top 7 Battery Energy Storage System \(BESS\) Projects in the USA 2025](#)

The Darden Battery Energy Storage System (BESS) is set to become the largest battery storage project in the US once completed. Developed by IP Darden I, LLC, a subsidiary of Intersect Power, the ...

### [US Battery Storage Project Map](#)

Here is a list of the largest battery storage projects in the US --ranked by peak operating capacity in megawatts AC. Scroll down to view information on each project like their capacity, construction date, ...

### [Enel completes GulfStar, its largest power plant in the U.S.](#)

Co-located with an operational 355 MWdc battery energy storage system (BESS), the combined plant is built with 911 MWdc of capacity. GulfStar's two-phase BESS reached initial ...

### [Top 10 Energy Storage Developers in North America , PF Nexus](#)

In this article, PF Nexus highlights the contributions of the Top 10 energy storage developers in North America to the global energy transition. North America is leading the charge in a ...

### [Top five energy storage projects in the US](#)

The Daggett Solar Power Facility - Battery Energy Storage System is a 450,000kW lithium-ion battery energy storage project located in San Bernardino, California, the US.

### [Top 10: US Battery Energy Storage Facilities . Energy Magazine](#)

Situated in Moss Landing, California, the Moss Landing Energy Storage Facility stands as a cutting-edge lithium-ion battery energy storage system, boasting a capacity of 100 MW and 400 ...

### [Top 10: US Battery Energy Storage Facilities . Energy Magazine](#)

Enel North America has completed its largest power plant in the United States with the start of operations of the 556-megawatt (MWdc) GulfStar solar plant in Wharton County, Texas.

### [Enel North America completes GulfStar, its largest power plant in the US](#)

Enel North America has completed its largest power plant in the United States with the start of operations of the 556-megawatt (MWdc) GulfStar solar plant in Wharton County, Texas.
