

Trina 695 photovoltaic panel size

Overview

20 is a high-power bifacial dual-glass module using monocrystalline high-density-interconnect cells, delivering 695 Wp with a module efficiency of $\approx 22.4\%$; it measures $2384 \times 1303 \times 33$ mm and weighs ≈ 38 . The Trina Solar TSM-695NEG21C. Product is no longer manufactured. Detailed profile including pictures, certification details and manufacturer PDF . Trina 720W Solar Panels pack unparalleled value into every module: you'll slash your LCOE and BOS costs thanks to its high-high-string-power design, while cutting-edge N-type i-TOPCon cells harvest maximum energy yield. Built for utility and large commercial projects, it supports. Lower LCOE (levelized cost of energy), reduced BOS (balance of system) cost, shorter payback time. Resistant to harsh environments such as salt ammonia, sand, high temperature and high humidity areas. Excellent product bifaciality and low irradiation performance, validated by 3rd party. More energy harvest with cutting-edge N-type i-TOPCon technology, Designed for compatibility with existing mainstream system components. 4% , making it one of the most.

Trina 695 photovoltaic panel size

[Trina 720W Solar Panels 695W 700W N-Type i- TOPCon Bifacial](#)

With up to 23.2% efficiency on a robust bifacial, dual-glass platform and super multi-busbar technology, you enjoy superior light trapping, minimal series resistance, and extra rear-side gains of up to 30%.

[Trina Solar TSM-695NEG21C.20](#)

The Trina Solar TSM-695NEG21C.20 is a high-power bifacial dual-glass module using monocrystalline high-density-interconnect cells, delivering 695 Wp with a module efficiency of 22.4%; it measures 2384 × 1303 × ...
