

Ukraine a solar glass factory

Overview

In February 2025, NovaSklo, Ukraine's glass manufacturing plant, unveiled plans for a €240 million float glass manufacturing plant in the Kyiv region. The first phase, set for completion by 2028, will create 300 jobs. The initiative aims to reduce Ukraine's dependence on imports and attract investment into the country's industrial development. In Kyiv on November 25, an agreement was signed between the International Finance Corporation (IFC, World Bank Group) and NovaSklo, part of the EFl Group, regarding the establishment in Ukraine of a float-glass manufacturing plant. Investors from NovaSklo, alongside representatives from the Ministry of Economy of Ukraine and the government investment office UkraineInvest, officially announced the project's launch today. "Ukraine is. Despite Russia's aggression, businesses continue to invest in Ukraine's economy, signaling confidence in Ukraine's market potential. The launch of the relevant project was announced yesterday by investors of the NovaSklo company with the.
