

Water drainage channel leaking from gaps in rooftop photovoltaic panels

Overview

Wind-driven rain enters these gaps and exits at roof edges. Improper flashing installation causes immediate problems. Water dripping from roof outside can be more than just an annoying sound – it's often a warning sign that shouldn't be ignored. Identifying the root causes, recognizing the early warning signs, and implementing effective solutions are crucial for safeguarding property value and ensuring a healthy living environment. However, there are common roof leaks we see and repair regularly. Hairline Cracks Left Untreated 4 4. At Mattsson Roofing, we recently encountered this problem during a project in Bergen County, NJ. Here's how we resolved it and what homeowners need. Water leakage in solar installations affects 1 in 7 rooftop systems within their first five years, according to 2024 NREL data. Let's dive into why your clean energy solution might be moonlighting as a makeshift showe Picture this: you've invested in distributed photovoltaic panels to save money.
