

Weida Industry Power Photovoltaic Panel

**Efficient
Higher Revenue**

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPP Trackers, 150% DC Input Oversizing
- Max. PV Input Current 16A, Compatible with High Power Modules

**Intelligent
Simple O&M**

- IP66 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

**Flexible
Abundant Configuration**

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AFCI Function (Optional): when an arc-fault is detected the inverter immediately stops operation

Overview

The full range includes general, deep-cycle, gel, front-terminal, and motorcycle series, with more than 300 models. Following the principles of people-oriented management, technology first, steady development, and integrity, WEIDA has become one of the leading VRLA battery. The 215kWh commercial solar battery storage system can help you break the deadlock and open up a new energy era of high efficiency, cleanliness and intelligence! Product Advantage: Large capacity, long-lasting energy storage: 215kWh large-capacity battery pack meets your high-load electricity. Established in 1986 and reorganised from Quanzhou Huaqiao Storage Battery Factory, WEIDA Power Company Limited specialises in researching, manufacturing, and developing VRLA battery plates and VRLA batteries. 268, Huanshi Mid Road, Guangzhou, Guangdong. China ENF Solar is a definitive directory of solar companies and products.
