

# What kind of photovoltaic panels does Trina produce

## Overview

---

**Advanced Technology Portfolio:** The company's Vertex series with 210mm wafer technology and TOPCon cells delivers up to 22.5% efficiency, while their comprehensive solutions including TrinaTracker systems and energy storage position them as a complete energy solutions provider rather. **Market Leadership with Scale:** Trina Solar has established itself as a top-3 global solar manufacturer with over 205GW of cumulative shipments and operations in 100+ countries, demonstrating the scale and reliability that makes it a Tier 1 bankable choice for large-scale solar projects in 2025. Founded in 1997, Trina Solar has been delivering residential and commercial photovoltaic solar panels across the globe from its home base in China. Our solar experts gave Trina an Excellent rating because of their long-standing reputation and affordable prices. 5.5-stars from customer. Trina Solar is the industry's Goldilocks option. Known for dependable solar panels that won't break the bank, the China-based solar panel manufacturer offers a middle ground between premium brands and budget options—and is popular among shoppers on the EnergySage Marketplace. Designed with 144 high-efficiency cells, this panel delivers consistent energy output even in low light. The company has not only been on the BNEF Tier 1 photovoltaic module manufacturer list for many consecutive years, but also has topped the list for six consecutive quarters since BNEF first released the Tier 1 energy storage manufacturer list in January 2024.

## What kind of photovoltaic panels does Trina produce
