

Wind Power Generation Association

ESS

Overview

AWEA is a national trade association representing wind power project developers, equipment suppliers, services providers, parts manufacturers, utilities, researchers, and others involved in the wind industry - one of the world's fastest growing energy industries. The American clean power sector is providing reliable, affordable, and clean domestic energy while creating jobs, spurring investment, and driving innovation. Many of the major markets installed less than in the previous year - in almost half of the top 20 markets, new capacity was. Including the International Energy Agency (IEA) & International Renewable Energy Agency (IRENA), we run through the world's leading energy associations Energy associations play a crucial role in the energy sector as they offer a range of benefits to their members as well as the wider industry. Our network includes the leading turbine manufacturers, developers, suppliers, and service providers from every corner of the globe. In addition, we represent national trade associations from both established and emerging wind markets, fostering collaboration across borders to accelerate the growth. New York is leading the way in developing the largest source of offshore wind power in the nation. For our community, our environment, and our future. AWEA promotes wind energy as a clean source of electricity for consumers around the world.
